

Score sheet for Bunco

A table tally and 4 score cards

Print a page for each table of 4 and cut along the dashed lines. The table's scorekeeper writes both teams' points on the table tally and ticks the team that won each round. Each player keeps a score card: write W or L after each round, total them at the end of the set, and make a tally mark for each Bunco and mini Bunco you roll. Use new cards and tallies for each set of 6 rounds.
