

# Score sheet for Sorry

Games won, up to 4 players

Date \_\_\_\_\_

After each game, put a mark under the player who won it. In the partners game (Red with Yellow, Green with Blue), mark both partners. A team that gets all 8 pawns Home before either opponent has all 4 Home wins a double game: give each partner 2 marks. At the end, count each player's marks and write the number in the Total row.

| Game  | Player 1 | Player 2 | Player 3 | Player 4 |
|-------|----------|----------|----------|----------|
|       | Name     | Name     | Name     | Name     |
| 1     |          |          |          |          |
| 2     |          |          |          |          |
| 3     |          |          |          |          |
| 4     |          |          |          |          |
| 5     |          |          |          |          |
| 6     |          |          |          |          |
| 7     |          |          |          |          |
| 8     |          |          |          |          |
| 9     |          |          |          |          |
| 10    |          |          |          |          |
| 11    |          |          |          |          |
| 12    |          |          |          |          |
| 13    |          |          |          |          |
| 14    |          |          |          |          |
| 15    |          |          |          |          |
| 16    |          |          |          |          |
| 17    |          |          |          |          |
| 18    |          |          |          |          |
| 19    |          |          |          |          |
| 20    |          |          |          |          |
